transport logistic 2025.

International trade fair for logistics, mobility, IT and supply chain management

transport logistic offers a unique opportunity to experience the entire logistics value chain in one place and to explore new business opportunities. With air cargo Europe, the world's largest trade fair for the air freight industry, as the 'show in show', transport logistic offers participants an ideal platform for intensive networking and knowledge exchange. The figures from 2023 confirm its success: over 75,000 visitors from 135 countries, representing growth of 18.5% compared to the previous event. And transport logistic continues to grow. With more than 135,000 m² of exhibition space, transport logistic 2025 is the most valuable information hub for the entire logistics industry.

Exhibition sectors.

Perfect logistics: transport logistic 2025 presents all solutions in one place. The four large exhibition areas offer everything for transportation by land, sea, air and combined routes. Whether we talk about services, products or research results, you will find the latest solutions here.

Exhibition areas:

- Services, freight transport, logistics
- IT, telematics, e-business, telecommunications
- Equipment for freight transport
- Intralogistics, warehouse management systems, auto ID, packaging

Conference program 2025.

Changing times, volatile markets and global crises. Logistics is a problem solver, but must always adapt to current challenges. The conference program will provide suggestions for clarifying questions about everyday logistics and the strategic realignment of the company. Around 270 expert speakers pass on their specialist knowledge and expertise to visitors and exhibitors at transport logistic in more than 50 events every two years.

Trend in visitor numbers

"As the leading rail logistics provider in Europe, we are shaping the industry anew every day. For us, transport logistic is the ideal opportunity to convince new and existing customers of our sustainable and efficient end-to-end logistics solutions."

Clemens Först
CEO, ÖBB Rail Cargo Group

"transport logistic 2023 was a complete success for DSV. We had many interesting and successful discussions with new and existing customers. Our stand was always well filled. As an industry get-together and platform for customers and our partners, the trade fair is very important for us. Being able to convince so many people of DSV in less than a week is unique."

Frank Sobotka
Executive Vice President, Central Eastern Europe
DSV Air & Sea

"transport logistic is still the most important trade fair for us worldwide. It offers the ideal environment to make contact with existing and future customers in just a few days. What I particularly liked this year was that sustainability was a recurring theme throughout the trade fair. This is a strong signal for the entire industry and will help us to focus even more on this important topic."

Tobias Jerschke
Chairman of the Executive Board, Kühne+Nagel
